

Mini Wave Reflector® Wire Rope Reflector

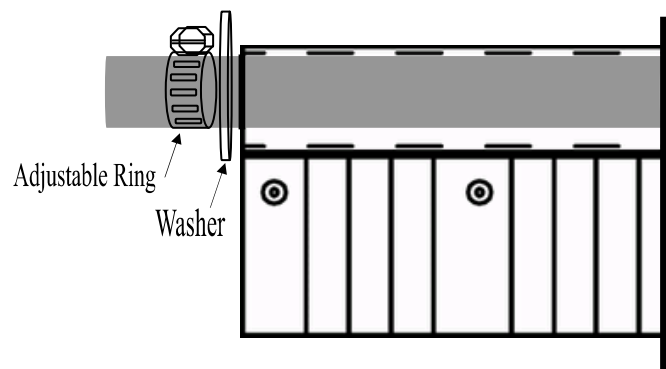

- Reflective Part: Mini Wave Reflector, ultra-high-luminance, flexible, wave-shaped reflective sheet.
- Base Material: High-strength, highly weather-resistant, power-line-protective, covered with special polyethylene cover.
- Easy installation: Slip on the guard cable, and fasten with the enclosed rings.
- Reflecting parts can be move: accumulation and weight of snow/ice are mitigated.

➤ Excellent for outstanding visual guidance effect!

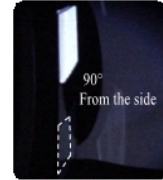

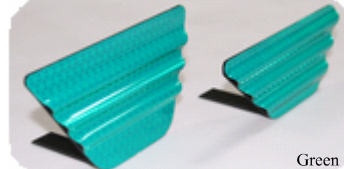

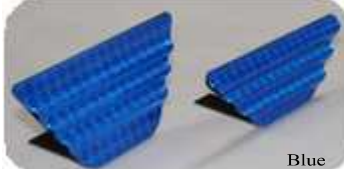

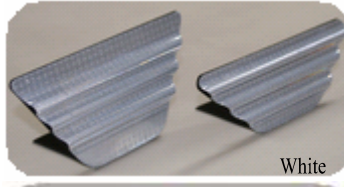

Even if the light source is directly perpendicular, the reflector demonstrates high-level of wide angle reflection performance. (Mini Wave Reflector)

➤ Reflecting parts can be move: accumulation and weight of snow/ice are mitigated.

Ultra-wide angle Reflector Types

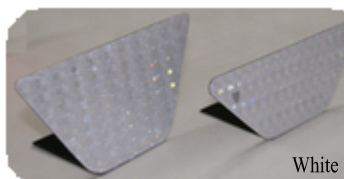

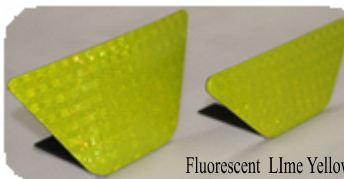

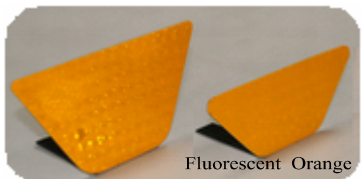

Product Type	Product Code	Size: W x L x H	MWII Reflector Colors
Trapezoidal Reflectors Using Mini Wave Reflector II	MWII - Gr - A - (color)	138 × 60 × 67	White, Yellow, Red, Orange, Green, Blue
	MWII - Gr - BC - (color)	138 × 60 × 48	White, Yellow, Red, Orange, Green, Blue

Even if the light source is directly perpendicular, the reflector demonstrates high-level of wide angle reflection performance. (Mini Wave Reflector)

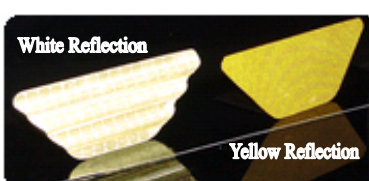

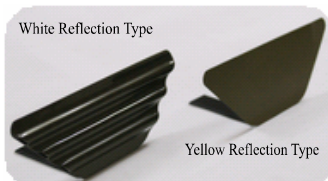

Fluorescent colors Types

Product Type	Product Code	Size: W x L x H	Prism Reflective Sheet Colors	Notes
Trapezoidal Reflectors using Wide-angle Prism Reflective Sheet	AT - Gr - A - (color)	138 × 60 × 67	White, Fluorescent Orange, Fluorescent Lime Yellow	Fluorescent colors are of the grade called “ten- year weather resistant”
	AT - Gr - BC - (color)	138 × 60 × 48	White, Fluorescent Orange, Fluorescent Lime Yellow	

Landscape colors Types

Product Type	Product Code	Size: W x L x H	MWII Reflector Colors	Notes
Trapezoidal Reflectors Landscape colors	MWII - Gr - BC (color)	138 × 60 × 48	Dark brown, Dark gray, Gray beige	White reflection/wave-shaped
	AP - Gr - BC (Black)	138 × 60 × 48	Black	Yellow reflection/flat

Manufacturer of Wave Reflectors:

NTW Co., Ltd.

10-5 Minami-Kashiwachuo,
Kashiwa-city, Chiba 277-0075 Japan
